

COFFEE TALK RECAP

June 26, 2025 | “What’s New at Gulfstream”

Featured Speaker

Travis Karp

Senior Manager Sales Engineering
Gulfstream Aerospace

Key Takeaways

- From the G280 to the G800, Gulfstream continues to lead with cutting-edge technology, performance, and cabin experience across its full range.
- Gulfstream jets offer industry-leading range and Mach 0.90+ cruise speeds, combined with customizable, quiet cabins and 100% fresh air circulation.
- The new G700 and G800 deliver unmatched range, speed, and the most spacious cabins in their classes, redefining long-range private travel.
- Gulfstream is actively incorporating Sustainable Aviation Fuel (SAF), carbon reduction initiatives, and eco-focused design across its fleet and operations.
- With a growing global service network and a reputation for excellence, Gulfstream remains the preferred choice for corporate, charter, and private clients alike.
